

The Meeting You've Been Waiting For

2012 AACC International Annual Meeting • September 30 – October 3 • Hollywood, Florida, U.S.A.

Check Out the Science

You are invited to check out the amazing scientific program at the 2012 AACC International Annual Meeting, where you are sure to find more of the science you want and need.

Mycotoxins, gluten-free products, the benefits of processing, the health benefits of grain and whole-grain fibers—these are just a few of the hot issues in the industry that will be covered at the meeting by the top scientists in the world.

Below is a small sampling of the session content you will find at the AACCI Annual Meeting. Want even more? **Technical sessions, workshops, hot topics, Poster Talks, and posters are still being developed.** Stay tuned for more information on all the fantastic science you can't miss at the 2012 AACCI Annual Meeting.

Symposium

- Addressing Texture Challenges in Baked Products
- Best Student Research Paper Competition
- Chemistry and Nutrition of Pulses and Minor Cereals
- Enzymes in Cereal Science: From Improving Dough & Product Quality to Improving Bioavailability of Functional Compounds
- Food Allergy Thresholds and Risk Assessment: Potential Stakeholder Benefits
- Formulating Grain-based Food for Glucose Control
- Gluten Free: Opportunities and Challenges Across the Supply Chain
- Healthy Food Manufacturing: Process Challenges & Solutions for Salt Reduction, Fat Reduction, and Fiber Enhancement
- Lipids in Baking: Minor Components with Major Impact
- Protein & Starch Changes Occurring During Various Cold-Forming and Dehydration Processing of Pasta, Noodle, & Pretzel Products
- Starch Modification
- Whole Grains: Where Are We and Where Are We Going?

Science Cafés

- Current Status and Development Trends of Asian Products
- Exploring the Differences Between Conventional and Modern Biotechnology—A Focus on Grains
- Is It Sweet Enough? A Dialogue on Sugar Reduction

- The New Generation of Professionals: Opportunities and Challenges in Transitioning from School to Work
- Peter Wood Memorial

Many Ways to Learn

Scientific Session Formats

Symposia

Aimed at optimal knowledge transfer through 20 minute talks with time for topical questions.

Science Café

Interactive sessions set up to combine shorter or more elaborate position talks with debate and discussion.

Poster Talks

Short talks, highlighting the main findings and take-home messages for selected posters, followed by in-room poster viewing and discussion.

Technical Session

Presentations, 20 minutes each, covering new scientific insights and technological advancements in the field.

Plus, find even more scientific research in more than 200 posters!

“There is no better way to get up-to-the-minute reports on cereal research and applications from around the world. After taking a peek at the preliminary program, I am really excited. There definitely is something for everyone.”
