

ACKNOWLEDGMENT OF REVIEWERS

The value of CEREAL CHEMISTRY® depends on the quality of manuscripts submitted by researchers and on the quality of reviewers of the manuscripts. Much effort is made to obtain reviews of manuscripts by the most qualified specialists. In addition to members of the 2002 Editorial Board, the individuals listed below provided constructive critical reviews of one or more manuscripts during the past year. Their names are published here in grateful appreciation for their contributions toward improving CEREAL CHEMISTRY® in its service to its readers and to science.

R. Ahmed	C. Earp	J.-L. Jane	D. Nevins
