

## ERRATUM

Cereal Chemistry, Vol. 54, No. 3

(May-June 1977 issue)

Page 699 by R. J. Alexander and M. C. Baur.

On page 701, the figure was printed upside down; it is correctly shown here below. The figure caption remains the same—it is reprinted here for the reader's convenience.

Fig. 1. One-dimensional development with acetone—chloroform showing no separation of aflatoxins from interfering substances. The corn sample contained naturally occurring aflatoxin B<sub>1</sub> and was spiked with 20 ppb each of B<sub>1</sub>, B<sub>2</sub>, G<sub>1</sub>, and G<sub>2</sub>.
